

The Sound of Silence: The Antithesis of Freedom

by A. True Ott, PhD, ND

December 12, 2008

The year was 1961, and John Kennedy was soon to become the 35th President. Shortly before Kennedy's inauguration, President Dwight D. Eisenhower shocked the nation and the world with his televised farewell speech. The speech's content was shocking because General Eisenhower was a very popular war hero, and American military might was second to none. Eisenhower, a highly decorated five-star general, was the Supreme Commander of all Allied Forces during World War II. It was Eisenhower's leadership during the Normandy Invasion that ultimately freed Europe from the Nazi scourge. Incredibly, in his farewell address, this great American hero did not warn the nation of the budding communist threat or the horrors of nuclear proliferation. No, not at all! Instead, this career military genius poignantly and soberly declared to this great nation:

"... we have been compelled to create a permanent armaments industry of vast proportions. Added to this, three and a half million men and women are directly engaged in the defense establishment. We annually spend on military security more than the net income of all United States corporations.

*"This conjunction of an immense military establishment and a large arms industry is new in the American experience. The total influence --- economic, political, even spiritual --- is felt in every city, every state house, every office of the federal government. We recognize the imperative need for this development. Yet **we must not fail to recognize its grave implications.** Our toil, resources and livelihood are all involved; so is the very structure of our society.*

*"In the councils of government, we must guard against the acquisition of unwarranted influence, whether sought or unsought, by the military-industrial complex. The potential for the disastrous rise of misplaced power exists and will persist. **We must never let the weight of this combination endanger our liberties or our democratic processes**"*

Here we have a career military officer, and sitting U.S. President warning the nation in his final farewell speech, that something called "unwarranted influence by the military-industrial complex" poses an extremely dangerous threat to our Free Republic society. According to Eisenhower, this threat "exists and will persist".

To President Eisenhower, in January of 1961, this evil was a much greater threat to America than Castro's Cuba or Khrushchev's Soviet Union. What exactly could have happened in the "military-industrialist" establishment that would have caused Eisenhower to issue such a strongly worded warning? Improved machine gun production? Nope. Battleship production? Nope. Nuclear submarines? Nope. Proliferation of Nuclear warheads? A concern of course, but a concern that most Americans were fully aware of.

No, obviously what caused Eisenhower such deep concern had to be something much more pervasively shadowy, dark and secret. Some new, covert, technology had clearly emerged that had the very real potential to provide certain individuals with the “acquisition of unwarranted influence” that in turn would “endanger our liberties or our democratic processes” (i.e. our free and fair election process). In other words, it had the clear potential to circumvent the voice of the people and completely empower un-elected power mongers.

Eisenhower, I would submit, was warning America about something called the “**Sound of Silence**”. Eisenhower was an honest and patriotic American. Like Marine Corp General Smedley Butler, who decades earlier declared to Congress that “War is a Racket” --- Ike knew that such absolute power and total covert control over the minds and hearts of individual citizens would corrupt society absolutely. He also knew and understood, as did the German philosopher Goethe:

“No man is more hopelessly enslaved, than he who falsely believes that he is FREE.”

Therefore, he issued his strong, concluding warning to America. Today, this author must do no less.

The Sound of Silence is a military-intelligence code word for certain **psychotronic weapons of mass mind-control** tested in the mid 1950’s, perfected during the 70’s, and used extensively by the “modern” U.S. military in the early 90’s, despite the opposition and warnings issued by men such as Dwight David Eisenhower. This mind-altering covert weapon is based on something called **subliminal carrier technology**, or the **Silent Sound Spread Spectrum (SSSS)**, (also nicknamed S-Quad or "Squad" in military jargon.) It was developed for military use by **Dr. Oliver Lowery** of Norcross, Georgia, and is described in US Patent #5,159,703

– “Silent Subliminal Presentation System” for commercial use in 1992. The patent abstract reads:

“A silent communications system in which nonaural carriers, in the very low (ELF) or very high audio-frequency (VHF) range or in the adjacent ultrasonic frequency spectrum are amplitude – or frequency- modulated with the desired intelligence and propagated acoustically or vibrationally, for inducement in to the brain, typically through the use of loudspeakers, earphones, or piezoelectric transducers. The modulated carriers may be transmitted directly in real time or may be conveniently recorded and stored on mechanical, magnetic, or optical media for delayed or repeated transmission to the listener.”

In layman’s terms, this device, this “Sound of Silence” simply allows for the ***unwarranted implantation of specific thoughts, emotions, and even prescribed physical actions into unsuspecting human beings.***

In short, it has the very real ability to turn human beings into mere puppets in the hands of certain “controllers” or puppet-masters. Eisenhower knew full well what such a “weapon” could do in the hands of greedy, conspiring men and women scheming to control the planet. ***It could easily result in the takeover of American society without a single bullet being fired.***

This is what he was warning America about, this is the “combination” he feared above all others. Have the leaders of America ignored Ike’s warning? Have conspiring and evil men and women utilized this diabolical technology on unsuspecting Americans and others outside of our borders? If so, ***will they continue to utilize the technology through the medium of Television and Radio?*** This expose will attempt to answer these questions, and give the reader a clear picture of exactly who made the decisions to use the “Sound of Silence” in both war and peace.

On March 23, 1991, a news brief was released in the form of an ITV News Bureau Ltd (London) wire service bulletin entitled “High-Tech Psychological Warfare Arrives in the Middle East”. This was during the administration of George Bush Sr., during “Operation Desert Storm” and describes in remarkable detail a US Psychological Operations (PsyOps) covert operation successfully deployed against Iraqi troops in Kuwait.

Saddam Hussein’s vaunted “Republican Guard” crack troops were promising Bush “the Mother of all Battles” with many thousands of dead coalition troops. On paper, it looked convincing. Hussein’s Republican Guard troops were battle-hardened veterans of the 10 year war with Iran, while coalition troops were unblooded. The Iraqis had modern weaponry and were well trained in how to use it. Something very strange happened, however. The “mother of all battles” ended before it began, as literally hundreds of thousands of Iraqi soldiers surrendered en masse without even firing a shot!

Here is what the British press reported on the incident –while the American press was censored:

“... an unbelievable and HIGHLY CLASSIFIED PsyOps program utilizing “Silent Sound” techniques was successfully deployed. The opportunity to use this method occurred when Saddam Hussein’s military command-and-control system was destroyed. The Iraqi troops were then forced to use commercial FM radio stations to carry encoded commands, which were broadcast on the 100 MHz frequency. The US Psy-Ops team set up its own portable FM transmitter, utilizing the same frequency, in the deserted city of Al Khafji. This US transmitter overpowered the local Iraqi station. Along with patriotic and religious music, PsyOps transmitted “vague, confusing and contradictory military orders and information”.

*“**Subliminally**, a much more powerful technology was at work, however. A sophisticated electronic system designed to ‘speak’ directly to the mind of the listener; to alter and entrain his brainwaves, to manipulate his brain’s electroencephalographic (EEG) patterns and thus artificially implant negative emotional states ---- feelings of intense fear, anxiety, despair and hopelessness were created in the Iraqi troops. This incredibly effective subliminal system doesn’t just tell a person to feel an emotion, it makes them feel it; it implants that EMOTION in their minds.”*

While utilizing such a “non-lethal” covert psy-ops weapon resulted in many lives being saved, both American, Coalition, as well as Iraqi, the question begs to be asked: how can Americans be assured that such a weapon is not being used on them by “Big Brother” on a daily basis?

Moreover, why was the REAL STORY behind the mass Iraqi surrenders censored so completely from the American people? Typically, secrecy of this nature is only employed when the subject

is morally offensive, or when the powers that be wish to continue to deploy the subject without public scrutiny or oversight, or both. Clearly, if such a device employed covertly on Americans could result in “unwarranted influence” over a society, as Eisenhower warned, I submit the majority of Americans would be completely outraged and incensed, and rightfully so. Therefore, of course the technology would need to remain hidden away.

Officially, the Sound of Silence (S-quad) technology does not exist, just as the US Government officially denies the existence of UFOs and Area 51, (Groom Lake) in the Nevada desert. However, the physical realities cannot be ignored by the rational and logical mind. For instance, during the first Gulf war, the man who most likely ordered the deployment of the Sound of Silence was **Major General Albert (Bert) Stubblebine**, who was the Commanding General of the U.S. Army’s INTELLIGENCE SCHOOL AND CENTER, as well as the Army’s **Electronic Research and Development Command (ERADCOM)** as well as the

Army’s **Intelligence and Security Command (INSCOM)**.

In short, Albert Stubblebine was the Army’s liaison with the **Central Intelligence Agency (CIA)** and **Naval Intelligence operatives (ONI)** – and as head of ERADCOM, he would of necessity have had complete working knowledge of the Sound of Silence weaponry, if indeed it truly exists. He was the U.S. Army’s top spy-boss, and of course, was privy to all its secrets. Now retired from active duty following a 32 year career, General Stubblebine has combined with his wife, **Rima Laibow** to form something called the **Natural Solutions Foundation**, supposedly dedicated to fighting all HEALTH FREEDOM THREATS to individuals including Codex Alimentarias, Vaccinations, and of course the FDA Gestapo. On their website, www.healthfreedomusa.org one can read this about Albert N. Stubblebine:

“Many of the innovations he developed helped the U.S. to conduct the First Gulf War effectively and swiftly with a very low casualty rate.”

But of course, such “innovations” are never fully disclosed to Americans and are officially non-existent. With all due respect to General Stubblebine and shadowy power-

brokers such as **Frank Carlucci** and **Donald Rumsfeld**, this author concurs whole-heartedly with General Eisenhower and I declare that such posturing and secrecy with weapons of mind-control constitutes indeed an “acquisition of unwarranted power and influence” and has **absolutely no place in a free and open society**- no matter **how many soldier's lives it may save on the battlefield**. The potential for massive misuse and abuse of such immense controlling power is simply too great.

Furthermore, with all due respect Mr. Stubblebine, is he and Rima Laibow using the cover of Natural Health activism to hide their true agenda? Could this hidden agenda be the covert promotion and testing of Sound of Silence equipment and technology commercially throughout the world?

It would seem quite logical that since covert “Black Project” mindcontrol operations was indeed his highest area of expertise while in the military, would it not be logical to assume that he would continue to engage in such work in his “retirement” years? I would submit such activity would be immensely more potentially PROFITABLE than soliciting donations while hawking organic veggies and supplements over the internet.

Is it not highly unusual for a career military man with such deep ties to CIA Black Ops to suddenly become a highly vocal natural health guru, especially considering that he had zero prior experience or hands-on training in the field?

According to his Natural Solutions website,

“He [Stubblebine] has taken this set of experiences [psy-ops work] and become involved in leading-edge medical research and development in collaboration with his wife Rima E. Laibow, M.D.”

Yet, oddly, nowhere on the NSF website is any of this “leading-edge” R & D technology discussed, even in the most generic terms. Instead, it is primarily aimed at soliciting tax-deductible donations. This alone should raise immediate red flags.

Furthermore, according to public documents available in Virginia, General Albert Stubblebine separated from his former wife Geraldine on Independence Day, (July 4) 1991 while he was at the height of his power and successful Psy-Ops venture in Kuwait against the Iraqi Army. The Stubblebines were formally divorced on September 9, 1994, whereby the divorce court granted Geraldine a decree on the “grounds of dultery”with a “female psychiatrist friend”, in all likelihood, his current wife Rima Laibow. Court documents show that Geraldine was chronically ill at the time of her divorce, suffering from “cancer and other ailments”and needed financial support from General Stubblebine to continue with her ALLOPATHIC treatments.

Nowhere is it mentioned in the divorce proceedings that any NATURAL treatments were being employed or had even been considered. Immediately after “retiring” from the army, General Stubblebine took a position as the “VP for Intelligence Systems” with **Braddock, Dunn, and McDonald (BDM)**, a major defense contractor owned by the shadowy **Carlyle Group** and **ex-Defense Secretary Frank Carlucci of Iran-Contra infamy**.

According to author Dan Briody in his book *The Iron Triangle: Inside the Secret World of the Carlyle Group*,

“BDM’s major business was in an area called Black Projects which are kept secret because to publicize them would compromise national security. Lawmakers often complain about Black Projects, citing that many contracts are thusly classified, not because of national security concerns, but rather to avoid the required congressional review.” (Ibid, pg. 35)

It is clear that BDM was very deeply involved in highly questionable dealings during this time frame. According to Dan Briody:

*“On Christmas Eve, 1994, the New York Times reported that Frank Carlucci had again been involved in a clandestine arms deal, this time with the Soviets. With Carlucci as chairman, BDM, now a Carlyle portfolio company, had brokered a deal between the Pentagon and the former Soviet Republic of Belarus to secretly purchase an S-300, the Soviet’s version of the Patriot missile defense system the United States had used so effectively during the Gulf War. ... For the deal, BDM used the infamous Canadian arms dealer **Emmanuel Weigensberg**, the same man that brokered the Iran-Contra arms shipments for the Reagan White House.”* (Ibid, pg 38-39)

Since the Sound of Silence machine technology was patented for “privatization” commercial applications by Dr. Lowery on October 27, 1992 , it clearly opened the door to private defense contractors such as BDM to develop their own “Intelligence Systems”.

It would then make sense to employ General Stubblebine as a consultant. Of course, what would then stop BDM from quietly marketing and selling the Sound of Silence to large corporations tied to Wall Street? For example, imagine utilizing the Sound of Silence in a large Wal-Mart store, mixing the ELF waves with background music to subliminally brainwash dishonest shoppers NOT to engage in shoplifting? Such a device would save Sam Walton many millions of dollars in lost revenue every year.

Suppose also that a young, black man from Illinois was given access to, and was able to utilize the S-squad Sound of Silence technology in his public speeches, radio and 30-minute television “infomercials” -- all programmed and designed by “handlers” to illicit strong emotional responses from audience members who then are merely “hearing without listening”.

Moreover, what if televisions across the U.S. and Canada all went 100% DIGITAL [E.g. the mandatory HD conversion to take place in Feb. 2009] in their signals (which must happen in order to successfully link to pre-positioned, interconnected GWEN (Ground-Wave Emergency Network) Towers) **which of course would allow the unrestricted use of the Sound of Silence frequencies in a complete and massive control of the nation’s mind and consciousness?**

I am telling you that is EXACTLY what is happening. President Eisenhower was absolutely correct, and his worst fears were indeed well founded!

The military-industrialist complex has quietly completed the takeover of the nation’s consciousness, and thus its very soul. All without firing a shot! What about Stubblebine and his

side-kick Laibow? What could they actually be doing in their world travels disguised as natural food activists?

Keep in mind that taking complete fascist control of America is just one step of the Zionist elites ultimate agenda, of which Stubblebine and Laibow have very likely pledged their true loyalty. The elitist Zionists overall objective is indeed absolute world control, something they refer to as a “New World Order” with them as dictators and over-lords. Again, the absolute **SECRECY** surrounding the development and deployment of the electromagnetic mind-altering technology of the Sound of Silence in a very real way reflects the tremendous power that is inherent in it. This is why Eisenhower knew that he **HAD** to warn the nation about it back in 1961. To put it bluntly, whoever controls this technology literally has the power to control the minds of men – all men and women everywhere.

Of course, whoever controls the minds of all humans, controls the wealth and destiny of planet earth. Furthermore, Stubblebine, as commander of Army Intelligence would likely follow the prescribed manual of all covert ops --- such as is found in a de-classified U.S. manual for the planned subversion and coup of the government of Nicaragua. The manual instructs the CIA “guerilla forces” to engage in different “false front” organizations designed to win the respect, trust, and influence of the enemy. Once complete trust and confidence is achieved by means of the activities of the “false front”, then the destruction of the enemy by means of misdirection and dis-information tactics can more easily be executed.

I would submit there is no better “false front” to infiltrate in America than Natural Health proponents, for they are typically healthier, better informed, and more dedicated to preserving individual freedoms and fighting tyranny than other Americans. Thus, there could be no better “false front” to establish, and there is clearly no more potentially vicious wolf hiding in sheep’s clothing than the man who knows more about the Sound of Silence secret deployment than any other human –one General Albert (Bert) Stubblebine and his Jewish psychiatrist wife, Rima Laibow.

There is ample evidence that certain elitists in America and Israel plan to definitely extend the capacity of this technology to encompass all people on every continent. A key to this is the HAARP project where ELF and VHF frequencies can indeed be beamed off of the earth’s ionosphere to various GWEN towers world-wide. Of course, the U.S. Government officially denies all of this, telling the talking heads of the controlled news media that the GWEN towers are merely private cell-phone towers with no ulterior agenda, and therefore anybody who thinks otherwise is a lunatic-fringe conspiracy nut.

The evidence to the contrary, however is clear and unequivocal.

Dr. Michael Persinger is a professor of psychology and neuroscience at Laurentian University, Ontario, Canada. Concerning this subject, Dr. Persinger writes:

“Temporal lobe stimulation can evoke the feeling of a presence, disorientation, and perceptual irregularities. It can activate images stored in the subject’s memory, including nightmares and monsters that are normally suppressed. Contemporary neuroscience suggests the existence of

fundamental algorithms by which all sensory transduction is translated into an intrinsic, brain-specific code. Direct stimulation of these codes within the human temporal or limbic cortices by applied electromagnetic patterns may require energy levels which are within the range of both geomagnetic activity and contemporary communication networks. A process which is coupled to the narrow band of brain temperature could allow all normal human brains to be affected by a sub-harmonic whose frequency range at about 10 Hz would only vary by 0.1 Hz.”

Dr Persinger concludes the article by writing:

“Within the last two decades a potential has emerged which was improbable, but which is now feasible. This potential is the technical capability to influence directly the major portion of the approximately 6.5 billion brains of the human species, without mediation through classical sensory modalities, by generating neural information within a physical medium within which all members of the species are immersed.

“The historical emergence of such possibilities, which have ranged from gunpowder to atomic fission, have resulted in major changes in the social evolution that occurred inordinately quickly after the implementation. Reduction of the risk of the inappropriate application of these technologies requires the continued and open discussion of their realistic feasibility and implications within the scientific and public domain.”

How can one have an “open discussion” on the subject when government circles continually deny the existence of such technology?

Lyrics to the Pop Song ‘The Sound of Silence’
Written by Paul Kane, (aka Paul Simon) in 1963

*Hello, darkness, my old friend
I've come to talk with you again
Because a vision softly creeping
Left its seeds while I was sleeping
And the vision
That was planted in my brain
Still remains
Within the sound of silence*

*In restless dreams I walked alone
Narrow streets of cobblestone
Beneath the halo of a street lamp
I turned my collar to the cold and damp
When my eyes were stabbed
By the flash of a neon light
That split the night
And touched the sound of silence*

*And in the naked light I saw
Ten thousand people, maybe more
People talking without speaking
People hearing without listening
People writing songs that voices never share...
And no one dare
Disturb the sound of silence.*

*"Fools," said I, "you do not know
Silence like a cancer grows."
"Hear my words that I might teach you,
Take my arms that I might reach you."
But my words like silent raindrops fell,
And echoed in the wells of silence.*

*And the people bowed and prayed
To the neon god they made.
And the sign flashed out its warning
In the words that it was forming.
And the signs said: "The words of the prophets
Are written on the subway walls
And tenement halls,
And whisper'd in the sound of silence."*

Paul Kane's (**Paul Simon**) musical work in the early 1960's was primarily as a contracted songwriter in the famed "Brill Building machine." He would write songs for other artists to record. He did try his hand at performing, however. Assuming a new stage name - Paul Kane - he wrote many ballads and rockabilly tunes which were recorded, both by Paul and as a member of the mildly-successful Tico and the Triumphs. Paul also had a famous collaborator - Carole Kane (who changed her name to **Carol King**). Paul Simon, a Jew whose family was part of the 'military-industrialist complex' was very likely a product of the early 1960's military experimentation in Silent Sound **mind control** –which is clearly what the lyrics of “The Sound of Silence” convey to those 'in the know'.

General Stubblebine's U.S. Army Intelligence School, U.S. Army Intelligence Center & School Insignias

A) Shoulder Sleeve Insignia

Shoulder Sleeve Insignia. Description: A diamond-shaped insignia with rounded angles, 3 inches (7.62cm) in height and 2 1/4 inches (5.72cm) in width, consisting of a 1/8 inch (.32cm) silver gray border around a blue field bearing on the lower half a yellow demi-sun with seven pointed rays terminating at the border, and centered above it the upper part of the flaming torch also yellow. This is the international symbol of illuminism, or the ILLUMINATI ELITE.

Symbolism: Oriental blue and silver gray are the colors for the Military Intelligence branch; yellow or gold signifies achievement. The torch is symbolic of education and the sun represents light and guidance from our God. The number of rays, seven, is symbolic of wisdom and strength.

Background: The shoulder sleeve insignia was originally approved for the U.S. Army Intelligence Center and School on 26 July 1972. Effective 1 October 1990, authorization for wear of the insignia was extended to personnel of the U. S. Army Intelligence Center and Fort Huachuca.
